OBJECTIVE

Motivated Python Developer with internship experience in automation, reducing data processing time by 30%.

Analyzed tasks to enhance software testing efficiency through **Clean Code** principles. Seeking a junior developer role to apply Python skills and drive **growth** in dynamic environments.

EDUCATION

Bachelor of Electronics and comm, St. Ann's college of engineering and technology 2021 - 2025

SKILLS

Technical Skills	Basics of Python, NumPy, Pandas, SQL.
Soft Skills	Teamwork, Problem Solving, Adaptability, Amicable.
Software Known	GIT, Jupyter Notebook.

INTERNSHIP EXPERIENCE

Assistant Python Developer (intern) Jun 2024- Aug 2024

Amaravathi Software Innovations Pvt Ltd *Rajahmundry, Andhra Pradesh*

- Achieved a 30% reduction in manual data processing time by developing Python automation scripts and optimizing software testing procedures.
- Led the implementation of Python-based data collection techniques, increasing data accuracy and reliability by 25% within 6 months.
- Developed data preprocessing pipelines in Python, enhancing machine learning model prediction accuracy by 15% over 4 months

PROJECTS

Mental Fitness Tracker: I had done the internship on Artificial Intelligence with the help of fellow team mates and I have learnt how to behave with the team mates and mentors. I successfully completed the project on Mental Fitness Tracker using NumPy and Pandas in Python.

Short Project Title. Built a project management tool using Python to streamline task tracking, resource allocation, and deadline management. Achieved a 40% improvement in team productivity by automating workflow processes and integrating reporting features with Pandas, NumPy, and Flask.

EXTRA-CURRICULAR ACTIVITIES

- Actively Browsing web exploring latest technologies.
- Playing Badminton.

LEADERSHIP

- Led a team of 10 peers in organizing a college-wide hackathon, overseeing project timelines, coordinating resources, and ensuring seamless execution. Fostered collaboration, resulting in a 50% increase in participation compared to previous years and a successful event that received positive feedback from faculty and participants.
